FOCUS FROM advance7

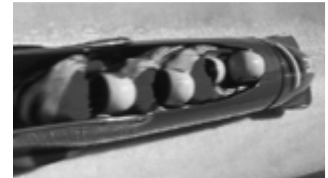

Make the most of your investment

Overview: In times when cost is even more under the spotlight than usual, no one can afford to waste budget, time or IT resource. So when you need to improve the performance and stability of your business applications, how do you know where to target your investment?

The FOCUS service from advance7 ensures that you correctly target any investment in business systems and websites. We have found that only 28% of the systems we have studied have required an upgrade to achieve their performance goals.

FOCUS UPDATED WHITEPAPER - SYSTEM PERFORMANCE ANALYSIS

Why there's no Silver Bullet

Overview: When considering a performance analysis tool, the preference in the IT industry (users and suppliers) is for a network-attached unit with a central management server. Realistically can such a tool give you an accurate picture? Get our one-page Executive Whitepaper for an independent view.

FOCUS CASE STUDY

eCommerce Performance Enhanced

Overview: A travel company's website intermittently took 40 seconds to navigate between pages. The infrastructure was very complex and interfaced with core business systems. Accurate diagnosis was critical as a £360k investment in servers had made no difference.
